

Aphasia Camp Northwest Adventure Weekend

"This is not a hospital or therapy... it is a healing place and an important break." ~ Peter

"Meeting friends who are walking this path continually help me be strong and continue to grow. What I learned is far more important than I can make known."
~Dennis (PWA)

Aphasia Camp Northwest Adventure Weekend is an opportunity for aphasia survivors and their care partners to learn, try, and experience new things at the beautiful Oregon coast. This is a time for attendees to bond through adventures, and grow together during activities that are not part of the everyday norm -- A weekend designed to help you step out of your comfort zone with safe, supported activities, to explore your goals, and experience adventure again. Facilitated communication in natural settings, socializing, and trying or re-experiencing recreational interests are at the core of this program.

August 23-25, 2019
Weekend Camp \$199 per person
Saturday Camp \$89 per person
Scholarships are available

Aphasia affects partners and family members, too. The Camp caregiver program includes professionally-led support sessions, coping strategies and respite activities.
